SKILLS

Languages	HTML, CSS, JavaScript (Node.js, Express.js, GraphQL)
Packages	SQL, NoSQL, MongoDB, Mongoose, Sequelize
Tools	Inquirer.js, Multer, Tailwind, Bootstrap, Handlebars, Insomnia

PROJECTS

devSpark	Our team created a social media dating app for developers. Using multer, cloudinary, and JavaScript, I handled image uploading and storing, and front-end rendering.
Movie Fetch!	We created a service which "fetches" the best movie for the user based on user-input criteria. I handled fetch requests to multiple APIs to randomly provide a movie and poster given optional criteria using Vanilla JS, HTML, Tailwind, and CSS.
Project 3	

EXPERIENCE

Customer Care Representative, Ingram Content Group
(Sep 2020 – Present)
- Supported customers such as Amazon, Barnes and Noble, universities, and local libraries via email and phone correspondence
- Assisted businesses with logistical needs, including but not limited to: placing orders, tracking shipments, tech support, and managing returns

Guest Services Representative, Adventure Science Center
(Nov 2018 – Mar 2020)
- Managed front desk responsibilities including phone calls, ticket sales, data entry, sales, and closing the museum
- Operated exhibits by answering guest questions, explaining risks, objectives, and proper use of specialized equipment
- Maintained, repaired, and troubleshooted specialized VR equipment
